

BACK 2023 BUSINESSSHIP

Feedback from our 2023 Delegates

WOW! What an incredible two weeks - it's hard to express just how impactful this programme is, thank you so much to all of you for committing to this and for taking the time and giving your energy and expertise to help make it happen. I am in a completely different mindset, feeling confident and fired up to get back into my career / into the next stage of my life! Every single session was valuable and every speaker including of course Liz and Amanda was inspirational, empathetic, and judged their audience just right. To be honest, I'm a bit blown away by it all - putting time out next week to get my head around everything I've learnt and to draw up an action plan.

Wow, what a fantastic 6-day returners program you have run. I have been blown away by the calibre of talent that attended, as well as the list of speakers. Thank you for the effort to make this program a success. You all deserve a big round of applause! I walk away today a bit taller with more confidence and hope. When you wake up tomorrow remember you are breaking barriers and making a difference in people's lives.

What an incredible Back2Businessship 2023 Returners Programme, thank you & the supporting partners & presenters for the opportunity to participate!! You have put your all into this - its such a smart much needed ground-breaking programme! It was like a marathon you need to sprint, pitched at a high level & the opportunity to meet such a talented group of energised returners ready to get into the workplace with fresh eyes.

Thank you for these amazing two weeks, it was unforgettable: the support we got from you, level of knowledge you gave us and most importantly- confidence, as Liz said: wind in our wings:)

I'm so grateful for all the skills: hard and soft you woke up, the inspiration from all the speakers, laughs, smiles and hugs from the lady-returners.

I will never forget this experience, I'm full of gratitude and knowledge, feeling ready for the new stage of my life.

Thank you again for the huge gift that was the programme. It unlocked a lot of dreams that I had packed away after years of knuckling my career, while building a family and moving counties. I had lost hope in myself and your team helped me restore it.

I found every aspect to be impressive from the well thought through programme and logistics, topics covered, calibre of speakers and content of presentations. It was an absolute joy and has given me the re-boot and confidence I needed to get back to work. I think what you are doing is brilliant and honestly cannot thank you enough.
